HONOKONG, FRIDAY, DECEMBER 6, 1889.

Per Parthia, at 11.30 a.m., on Saturday, ! DAY, the 10th Dec, with Mails for policy he enunciated shortly after his a ri. North Borneo is a rising Colony, and tele- Dufour, Brothers, Shanghai. In conseval, has endeavoured with little success to graphic communication between it and prove to the authorities at Home that we Hongkong on the one side and Singapore fendants, one of whom is a son of the comought to be permitted to raise a loan to pay on the other would no doubt forward its plainant, were arrested on board the sec. some of the largest public works that are for development. The time, however, has Fushun the other day, on her arrival from the benefit of future generations even more scarcely come for such lines. They would Shanghai, and on their being searched than they are for the present. While it is une not pay at the present moment. Five or 1,800 tacks were found in their possession. just, for the sake of present needs, to bur- six years hence the chance of profitable den future residents with a heavy debt, it working will be greater, and then it may be produced a telegram from Shanghai, stating is equally unfair to compol the present re- a question for Hongkong and Singapore sidents to pay the whole cost of such works | merchants whether they should not fo.m a as the Tytam reservoir and aqueduct, which | Company and lay down a line themselves, we may reasonably suppose will form a with the promise of a little assistance from

portion of our surplus not of pressing exploiting; necessity, it might be well to devote the balance of ordinary revenue over ordinary expenditure to the remission of taxation, leaving only such works to be carried out as the returns from the sale of land would permit. But looking over the list of public works appended to the estimates, we can searcely pick out one item that is not urgently required and the indefinite postpopulation which would not be prejudicial to the Colony. There seems no hope, therefore, of evading the sacrias there is every reason to fear, insists on | arrested at Canton. ... our making a large contribution for the extra regiment that is being sent here for cannot expect us to pass large military votes | Myro de Villers. and pay all permanent improvements out of present revenue, and that by his insisting on such a policy he is running the risk of seriously injuring the present commercial interests of the Colony.

The unjust treatment we have received from the Home authorities in financial matters calls up another subject with regard to which their conduct has been as unsatisfactory. The Imperial Government is convinced, it would appear, of the great advantage of establishing direct cable communication with Singapore, or at any rate communication by means of a line passing only through British territory. The Admiral on this station has declared that, even although the cable were cut when war was declared, the passing of one message along the line that wer was imminent might mean a vast saving to Hongkong and British interests in the Far East. Supposing this very exaggerated view to be correct, it is no reason why Hongkong and Singapore should be asked to pay the heavy subsidy demanded by the Eastern Extension Telegraph Co. Would not tho saving to Imperial interests be tenfold what it would be to Hongkong-? Not to speak of the innumerable British merchant vessels which might be defended, would not our large fleet be preserved from surprise? When it is a question of paying money the Colonial Office is too apt to regard Hongkong as embracing all the interests of England in this quarter of the globe. But had she nothing more than this small island to defend, she would not maintain the large fleet that is now in Eastern waters. We are doubtless the central point of British interests in the Far East, and it is of defended. Towards that defence the Colony, inasmuch as it reaps the advantage of security, is willing to contribute its fair share, but it is too much to ask us to take on our shoulders the cost of defending the in-Japan and the many interests which ship-

-We doubt, however, if the cable would be of such great use to the naval and military authorities as they attempt to make out. It is impossible to suppose that war would be declared without the least warning. The train of events that lead up to such a calamity is generally pretty protracted. We would at least hear of an ultimatum before the actual declaration of war. Suppose it were France with which we were embroiled. We are as likely to have prompt news via Saigon as the French Government of Indo-China. Our neight The Canadian Pacific s. s. Batavia left bours would not risk cutting off connection until war was actually declared, and a cipher message from Cape St. James might No Credit given for bottles that are reach Hongkong about as soon as it would Saigen. The line is not hold by a French but by an English Company, and it is not likely that the English manager would allow messages or the line to Hongkong to be | Haiphong and the Red River, the total tampered with, before war was declared, without informing Singapore, from which point the messages to Indo-China might be at once stopped. It must not be forgotten tion) to-day, before Mr A. G. Wise, Acting that we are in equally as good if not a better position in this respect than our French slander, at the instance of Mr J. F. Webneighbours who are almost wholly depend- ber, Solicitor, against Mr Oscar Brandt, ent on the English line. Bowrington to the site of the Old Central experiment. A fine new marquee, about half spain as large as the former one, has been supplied by Mr Kiley here, and even this was found inadequate for the accommodation of the crowd which flocked to circus last night, and money had to be refused at the door before the commencement of the performance. Chinese course formed the great bulk of the audience, but there was also a large attendance of Europeans. On account of the Jargely increased numbers expected to visit the show on its new site, it has been arranged -to-give-two-performances each-day, one commencing at 4 and the other at 9 p.m. The new tent is lofty, excellently ventilated and brilliantly illuminated. The profrequent and hearty applance; showed itself thoroughly appreciative. Among the items which call for special attention were the very clever and daring trapeze feats of the of the two Japanese, Mr Schnedel's skilful horsemanship and astonishing somersaultcomicalities in their sketch entitled 'Othello' The clowns were yery good in their way, and the ingenious Myrtine made a big hit by introducing a trio of youthful pupils who made the audience tour by the serious and business-like way in which they endeavoured to imitate some grotesque antics of their teacher.

sentous collision has occurred on the river below Altona between the two English steamers Begconshire and Telesilla, and the latter was so severely damaged that she had to be run ashore to prevent her sinking. The vessel was from England, laden with coal. The Breconshire, outward bound to China and Japan, had to return to the city. and is being repaired. Both vessels were in charge of licensed pilots.

Stock Exchange on the 29th ult. In the The Scolor islands, a whilem pirates nest rhish and turmoil of the fortnightly settle- brought under by the Spaniards some 13 ment a buyer of certain shares was notable to get his voncher as soon as he wished. Thereupon he took the hasty and extreme mea sure of instructing the official appointed for such purposes to 'sell out,' and was technically within his right in doing so. This process is conducted on the plan of a Dutchauction. The official offers shares at a moderately high price, and gradually descends, in the absonce of bidders, to low prices. seems to be considered etimette by the members of this club-fer the Stock Exchange is virtually a club for business purposes-to refrain from bidding und r auch circumstances. One niember found the temptation too great; made a bid for the shares when the price offered had dropped low, and got them. Thereupon the floodgates of offended public opinion within the House were opened. The daring buyer was justled and hustled and physically maltreated in a way which he, at least, will remember for 

Tue Kingdom of the Sedangs is what poker Thivers would call a busted flush.' Yesterday, so to speak, Mayrona was a King; he lates in Sooloo. > THE consecration of the Rev. C. J. Corfe. D.D., Bishop Designate of the Korea, and late Chaplain of H.M. Dockyard, Portsmouth, is to take place in Westminster Abbey on the foreneon of Friday, November 1. Much naval sympathy, hopes, and good wishes (says Broadagrew) go with one whose character has always furnished an example to follow, and whose influence for good, wherever he has acted, has been so marked. There is a laborious task before him as the field is absolutely untouched, and the men who are to work with him in the Korea are not yet found. But if high aims, strength, and perseverance are ever to tell, they will do so in the new Bishop's case. Is not the choice of a Bishop from naval ranks up a scheme. altogether a new thing !

gramme of last night was gone through The Canadian Railway Company has per very successfully, and the andience, by feeled a time table for running a mail train, which in speed will eclipse anything known in the history of railroading. No passengers will be taken, and it is to be run from Vanconver to St. John, N.B., from the Pacific to the Atlantic, in four days. It was requested by the Imperial Government for the speedy Brothers Valazie, the smart performances I transit of the English mail which passes between that country and China and Japan. The experimental train will be given four days, and fourteen locomotives will be run, throwing, and Messrs Harland and Love's each going about 240 miles. Apropos of the announcement, says the Winnipeg Sun, that the C. P. R. proposes to put on a fast mail train from Vancouver to St. John, N.B., to carry the China and Japan mail from the Parific to the Atlantic in four days, Colonel, White, Deputy Postmaster-General, says that the last train from the far cost which passed over the C. P. R. route contained hearly four thousand letters for Europe, independent of a large Canadian and United States mail. Nearly 250 of these were registered letters. This mail was made up of letters from every part of Northern China and Japan, and the addresses were written in almost every European language, including the Russian, which is pretty good indication that the Siberian mail via Vladiovostock is taking the Canadian route. Considering that the new route has been in operation such a comparatively short period, the manner in which it is being utilized is considered most encouraging.

> years ago, have been the scene of an interes ting colonial experiment. The Spanish Government, on conquering the group, left the native Sultan in charge as vassal, and established a settlement near his chief town foreified on the landward side. Those of the natives who would not brook foreign domination lost no opportunity of harassing the garrison, and hostilities continually broke out, almost always to the disadvantage of the aggressive islanders. Meanwhile, the Spanish occupation has given security enough to admit of an expansion of trade with Sin- | ing. gapore, carried on mainly by three steamers, the Benmore, Speni I, and Hong Ann, which ply monthly. The produce shipped comprise hemp, cocoa, coffee, gam mustic, and sundry jungle products. The natives take little care of their cultivation, and bring the articles to market roughly prepared, in consequence of their inborn ind dence. Netwithstanding the bad quality o these articles, traders buy them up comparatively high prices, owing to the ad vantage of paying for goods from Singapore in produce as much as possible, instead of in coin, the silver form of which only circuscope for blanting enterprise in con concerce of favourable conditions of soil and clim to for growing produce articles sure to command remunerative prices at Singapore. rieancs which ravage the other Philippine islands. Abundance of rain and numerous running streams ensure a never failing supply of water. Yet, des ite these advanembacking in the cultivation of the soil. A German who did the reverse has found

SANITARY BOARD.

The Sanitary Board mot this afternoon. There were present: Hon. S. Brown, Surveyor General, (President); Hon. W M. Deane, Acting Captain Superintendent of Police; Hon. N. G. Mitchell-Innes, Acting Registrar General: Hon. Wong Shing, Dr Ayres, Colonial Surgeon; Mr Ede, Dr Cantlie, and Mr Hugh McCallum

THE PUBLIC LAUNDRIES QUESTION. The Secretary read the following minute by Dr Cantlie on the papers circulated in connection with this subject :- 'I think the oninions of those who have had an opportunity of judging the work of public laundries should be taken the evidence sifted by the Board and the conclusions forwarded to His Excellen<del>cy the</del> Governor.' The following communication from the

Colonal Secretary's Office on the subject was then read :— Colonial Secretary's Office.

26th Nov. 1889. Sir,-With reference to your letter No. 317 of the 22nd instant, and its enclosures, I am directed by His Excellency the Governor to acquaint you for the information of the Smitary Board that it has been formore than a year past His Excellency's intention to establish Public Laundries as should be in a position to undertake the work. As the Board will, His Excellency doubts not, be able to make valuable suggestions on the subject he will be happy to give his best consideration to any scheme they may propose. -I have the honour, &c.,

A. LISTER, Act. Colonial Secretary. -The President-I would suggest that it is desirable to appoint a committee to draw

Ede and Mr Mitchell Innes. The Presi- the correspondence and report. takes as regards sites; Mr Mitchell Innes | did not know well where they were would have to do with the Chinese, and He believed it arose from an endeavour to Mr Ede was one of the principal promoters | prevent the polution of Pokfulam Water,

information from Singapore, where similar | the Peak. institutions are carried on.

The motion was munimously agreed to.

The Secretary read communications from the Acting Colonial Secretary, intimating that the by-laws prepared by the Board with reference to the housing of cattle and the scavenging contracts had been approved by the Governor in Council and duly published in the Government Gozet'e. Mr Deano suggested the advisability of having all the Board's by-laws collected and out into one volume, as they were otherwise apt to get lost in the depths of the Gazette, :

The Secretary said he was making arrangements for having this done.

THE VACCINATION ORDINANDE. The Secretary read a letter from the Colonial Secretary's Office, transmitting a cop of the bill entitled. The Vaccination Ordin ance, 1889' for any observations the Board might think it necessary to make thereon; also a minute by the Acting Registrar General, with regard to which it was stated that His Excellency was of opinion that in at least some particulars the acting Registray General had shown the expediency of the amendments suggested

The President said he presimed these papers had better be circulated. Mr Deane thought it desirable that this subject should be disposed of as quickly as possible as it was now about the begin ning of the small-pox season.

On the motion of Mr Ede, seconded b Mr Deane, a committee consisting of Dr Ayres. Dr Cantlio, Dr Ho Kai and the Act ing Registrar-General were appointed to consider the bill and report at next meet-

THE WATER SUPPLY.

Chadwick. Mr Chadwick said that the water direction. pipes requisitioned by the Surveyor Genegravitation. The question of providing a from Bolinao. \_\_\_\_ water supply for dwellings above that level would be considered as soon as possible, At the same time it was desirable to postpone any supply to districts which are above the general level of the water works, and which therefore require pumping, until some definite plan has been adopted for the regulation of the general water supply of | birants of Singapore.

SANITARY SUP. RINTENDENT'S MONTHLY. REPORT.

interest in it was that the committee considering the question of over-crowding were. continuing the work of measuring rooms | mantic minds. and tenements, and had got through 29 blocks in the Eastern district, 30 in the Ceatral and 25 in the Western.

THE REALTH OF KOWLOON.

In submitting the Mortality statistics for the weeks ending 23rd and 30th November, the Secretary read the following minute by Dr C unthie: 'The chief point to be noticed in the Kowloon return is that the death rate amongst both populations (European and Chinese) is high in proportion to all other returns.' A minute by the President was also read stating that the very remarks able difference in the death-rate among both populations, varying in this report from 7.4 per 1000 in Victoria to 83.2 per 10 0 in Kowloon, seemed to call for special invostigation and report.

Tho: Secretary then read a report will regard to the high death-rate at Kowloon as shown in the mortality statistics submitted at last meeting. He found that in the Hanghour division there were deaths, in the Tsim-sha-tsui division 2, in the Yaumati division 17 and in the harbour division 12. The deaths were with one exception areong adults. Mr Ede asked if the Secretary was

continuing his inquiries as to the cause of the high death-rate.

The Secretary said he was doing so. The President-I have been over at Kowloon during the last month and made several inquiries there. So far as I could learn there has been no exceptional illness except among the Chinese population, and a considerable part of that may be put down to natural increase of the population. Further I find that in the early part of November there was a very great change in the weather and a groat lowering of the temperature, and that many people were suffering from chills and colds which terminated in a condition of

THE DRAINAGE OF THE HILL DISTRICT. Correspondence with regard to the mitect was laid on the table.

Mr Ede in a minuto suggested that view of what the Governor said to the deputation of Peak residents about flushing by hand, the question might stand by for a

question ought to be systematically dealt with by the Sanitary Board, either immediately or this day three months. Mr Francis in a minute, suggested that the matter should be brought before the Board with a view to a resolution being passed recommending the complainants to li connect from the Peak drainage system. until the drains were properly flushed. The Chairman said this opinion was rather

amusing as several applications had come from various residents to connect with the Government drains. One of them came from Mr Francis for a similar system of drainage in connection with Magazine Gap. W. C. M. in Singapore Free Press. Captain Deane-Is this not one of the matters that Mr Chadwick will doal with? The Chairman-Ultimately.

Me Edo said he thought it was generally agreed that without water nothing

could be done. Dr. Ayres proposed that a committee be | The Chairman advocated the appoint appointed, consisting of the President, Mr | ment of a Committee to go through, dent would be able to prevent any mis- had become so voluminous that they for it was of great importance that the re-Mr Deane seconded, and suggested that | sidents of Victoria should be preserved

After some further discussion it was agreed to leave the matter in the hands of the President and the Secretary, to be brought up a month hence.

GOVERNMENT LYMPH. A report on the cultivation of Government lymph was laid on the table. The Colonial Surgeon moved that it adoption and sent to the Government. Mr Ede suggested that it should be sent to the Inspector of Live Stock for report. The Colonial Surgeon said Mr Laddy had been consulted in the drawing of it up and be supposed all he had to do would be to carry it out, and he sun osed he would receive extra remuneration for the work. Captain Deane-You will find the principle of the Government is to put extra work

on the officers and not to nav for it. Dr Cantlie suggested that the department should receive a grant for these lymph experiments. The civil practitioners had a right to get lymph and they ought to be Lord Reay as Governor of Bombay, the supplied at the end of each season. It was a matter the community ought to pay for. It was agreed to transmit the report, the President saying he had no doubt the observations made would have the attention of the Government.

THE CHINA REVIEW. PUBLISHED BI-MONTHLY.

ITHIS Review, which was intended to most 1 the wants of many students of Chinese caused by the discontinuance of "Notes and Queries on China and Japan, has reached its Eighteenth Volume. The Review discusses those topics which are uppermost in the minds of students of the 'Far East' and about which every intelligent-person connected with China or Japan is desirous of acquiring trustworthy information. It in cludes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Unstoms, etc., etc. of China, Japan, Mongolia, Tibot, and the Far East generally. Recently a new departure has been taken, and the Review now gives papers on Trade, Commerce, and Descriptive notes of Travel by well-known writers. It was thought that by extending the scope of the Review in this direction the Magazine would be mademore generally

The Review department receives special attention, and endeavours are made to present a careful and concise record Literature on Ohina etc., and to give critiques embodying sketches of the Most recent works on such topics. Authors and Publishers are requested to forward works to Editor, China Review, care of China

The Notes and Queries are still continue and form an important means of obtaining from and diffusing among students knowledge on obscure points.

The Correspondents' column also affords farther and greater facilities for the interchange of views and discussion of various

Original contributions in Chinese, Latin, or any of the Modern Languages are received. The papers are contributed by the members of the various Consular, the Imperial Customs, and Hongkong Services, and also by the Missionary bodies amongst whom a high degree of Chinese scholarship is assiduously cultivated. Amongst the regular contributors are Drs. Chalmers Eitel, Bretschneider, and Hirth, Professor Legge, and Messrs Balfour, Watters, Stent, Phillips, MacIntyre, Greet, Jamieson, Faber, Kopsch, Parker, Playfair, Giles, Piton, and Taylor, -all well-known names, indicative of sound scholarship and thorough

mastery of their subject. The Subscription is fixed at \$6.50 pe annum, pestage included - payable in ad Orders for binding volumes will be promptly attended to; Address, 'Mana-

OPINIONS OF THE PRESS.

ger, China Mail Office.'

'All our learned societies should subscribe to this scholarly and enterprising Review.'-Northern Christian Advocate (U.S.) 'The China Review \* \* \* has an excellent table of contents.'-Celestial Empire. 'The Publication always contains subjects of interest to sojourners in the Far East and the present issue will hold favourable if not advantageous comparison, with preceding numbers.'-Celestial Empire.

This number contains several articles of interest and value.'—North-China Herald. . The China Review for September-October BLACK SEA PORTS, ALEXANDRIA, fully maintains the high standard of excellence which characterises that publieation, and altogether forms a very interesting and readable number. Meteorologists will find an interesting and valuable contribution by Dr. Fritsche, on "the Amount of Precipitation (Rain and Snow) of Poking," showing the results of observations made at the Imperial Rus. | 1889, at Noon, the Company's S.S. a an Observatory at Peking, from 1841 to /JEMNAH, Commandant Bonneroy, 10 a.m., Cargo will be received on board 1880. "Notes on the Dutch Occupation with MAILS, PASSENGERS, SPECIE, until 1 p.m., Specie and Parcels until 10 of Fermoss," by Mr. Geo. Phillips, contains and OARGO, will leave this Port for the a.m. on the 21st December. (Parcels are some interesting information, although above places. much of it is second-hand. The Notices of | Cargo and Specie will be registered for left at the Agency's Office). Contents and New Books include a most generous and London as well as for Marseilles, and soappreciative review of "The Divine Classic | cepted in transit through Marseilles for the

Giles on "The New Testament in Chinese" treats of a question that must neces- Company's Office. sarily be of great importance in the eyes of all missionaries. . . Mr E. H. Parker's "Short Journeys in Szechuen' are continued, and a goodly instalment of those travels in the interior of China is given. Mr F. H. Balfour contributes a paper of some length entitled "The Emperor Cheng, founder of the Chinese Em-pire," which will be read with genuine interest by students of Chinese history. A few short notices of New Books and a number of Notes and Queries, one of which "On Chinese Oaths in Western Borneo and Java" might appropriately have been placed under a separate heading, complete the number. —H. K. Daily Press.

Daily News.

Trubner's Oriental Record contains the following notice of the China Review:-The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, some what similar to that which has been filled in India by the Calculta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature. antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be locked or from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese TBAMES, Capt. W. SEATON, with Her scholarship is now assiduously cultivated. and who are severally represented in the first number of the Review by papers highly creditable to their respective authors ... Some translations from Chinese novels and 4 p.m. on the day before sailing, plays are marked by both accuracy and froshuess of style; and an account of the career of the Chinese poet-statesman of the eleventh contary, Su Tang-p'o, by Mr. E. O. Bowrs. is not only historically valuable, but is also listinguished by its literary grace. Beside actices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that Notes and Queries are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar Logroe of literary seal to that which was
